T-547

"Simichrome"
 2 oz. tube
 Perfect for virtually any metal. Buff to a high polish with a soft clean cloth. Leaves a protective film.
T-603

Green Rouge

1/4 lb. bar

Very high luster on precious white metal such as silver, white gold, and platinum.

T-538**Brown Tripoli**

1 1/4 lb. bar

For fast cutting on all non-ferrous metals and plastics.

T-575**White Rouge**

1/4 lb. bar

Superior dry compound for cut and color on gold, silver, copper, and plastics.

T-570**Platinum Tripoli**

1 1/4 lb. bar

Great for hard metals! All purpose cutting on all non-ferrous and precious metals. Very easy cleaning with some luster.

T-882**Yellow Rouge**

1 lb. bar

Gives brilliant finish on gold, stainless steel, platinum, and other hard metals.

T-571**White Diamond Tripoli**

1 1/4 lb. bar

Excellent final finish with slight cut on all metals.

T-605**Platinum Polish**

1/4 lb. bar

A relatively dry compound that gives platinum a much brighter shine than existing compounds.

T-568**Bobbing Compound**

1 1/4 lb. bar

Used primarily for fast, heavy cutting.

T-604**Zip**

Excellent as a final finish for gold. It leaves a high luster and has no residue. Zip is the perfect compound for silver. It will not scratch stones so they don't have to be removed before buffing, saving the user time.

1 lb Tube **T-539****Grey Steel Compound**

1 1/4 lb. bar

Produces a good cut with no wild scratching and a good color on all metals.

T-537**Picasso Blue Platinum Polish**

1/4 lb. bar

Excellent for light cutting and high polish of platinum

T-881**New****Red Rouge**

1/4 lb. bar

Provides a mirror finish on gold, silver, copper and brass. Will emulsify in hot water for easy removal of residue.

T-569**Krystal Clear**

Plastic crystal polish especially formulated to remove scuffs and scratches which gives plastic crystals that "like new" look. Takes only a few seconds on a buffing wheel. 5oz. Bar
